**31050.00 in Cash Business for Every Square Foot of Floor Space in My Store During the Past Year.**

Four business, but "there's a reason." My advertising has done the whole thing. The advertising of my customers. You know that after all it's the advertising of your customer that pays best. Of course, the newspapers secure the customers first and then I make them permanent advertisers by giving them such good values. I am in a position to improve people very much because there's such a difference between my prices and the prices of others. To illustrate this point, Mr. Blank, who, by the way, is a prominent business man, bought a stone to me and asked his worth. That is, what I would sell for. I told him. He was surprised and asked me if I would double it for the price quoted. I said yes and immediately wired my color book into the exact size and color. It was a pure white stone absolutely perfect. Come to find out my other was \$69.50 less than he had paid for the stone elsewhere. There are several reasons for my ability to sell so cheaply. First, I secure the goods at right prices. My New York man is on the job every minute and often picks up some really extraordinary bargains. Second, there's my small expense of doing business. I'm here on the job every minute myself and my store is small and my rent reasonable. Third, I am satisfied with my profits. I don't want it all. If I could talk personally to every prospective customer in every jewelry purchase in Phoenix, I'd get \$100,000. I could sell them all. I know I could. Here's the all important and predominant reason - Dollars and Cents saved. I can save any man, woman or child much money on Diamonds, Watches and Jewelry of all kinds. Just received a beautiful Westcott Diamond, weight 1.12-100. Regular price \$700.00, our price \$250.00.

LET ME PROVE IT TO YOU!

## WHO'S GOT THE BUTTON?

Night Captain of Police John J. McGrath is worrying. A day or two ago he had two perfectly good, gold cuff buttons each engraved with his initials. Now he has only one. The other separated itself from the officer's cuff sometime Thursday night. It wouldn't be of much use except to a one-armed man and so "Captain Jack" would appreciate the return of the missing link by the finder. There might be a dollar in it if the finder sends the money and would accept remuneration for his honesty.

## PLEASED WITH NEW PALACE HOTEL

Ex-Senator C. C. Rogers of Wisconsin, who is stopping at the New Palace Hotel, San Diego, being interviewed, said:

"San Diego with its natural harbor and comfortable climate should have a great future."

"The exposition with its marvelous settings in beautiful Balboa Park will probably never be surpassed anywhere in this country."

"One can readily picture in imagination what wonderful beauty will be found in Balboa Park twenty-five years hence in a country like California where plant life, the innumerable varieties of shrubs, palms and cacti grow luxuriously practically the year around."

"The enterprise and pluck of the citizens of San Diego is proverbial. Its splendid hotel facilities that must always contribute so much to the comfort and contentment and happiness of the stranger within its gates, is a great adjunct to any city."

"There are many excellent hotel-keepers in San Diego, but not all of them have managers (to the manner born) like the person of George L. Mayne, who is a prince among men and who has few equals in point of ability, capacity and genial good nature. The fellow who said anyone could run a hotel or a hotel better not try to fill the manager's place at the New Palace. Mr. Mayne is also president of the Hotel Men's Association, which body has had much to do with the continuing of the exposition for 1916."
